Hitler Fought Against Organized Jewish Racism

This is from an answer I gave on a thread:

Table Talks has been altered like everything else.

That fact as I wrote in an article on the subject Hitler is the acknowledged liberator of India and the father of Indian independence by the Hindu swamis and scholars themselves. Srila Prabhupada is on record stating this fact it was not Gandhi but Hitler via Bose who was the giver of Independence to Hindu India.

Hitler and Bose worked together with their allies to liberate India from the Rothschild Empire, which was brutality oppressing the India population, including with genocide. There are murals of Hitler meeting with Bose the national hero of India all over the nation. The Jewish Rothschilds and their fellow Jewish oligarchs who ran the Empire also worked to destroy Hinduism in India as the last major Pagan Gentile land left. Thus following the Torah. The Rothschilds, in their own writing from the 19th century, call themselves the Messiah thus the Kings of the Jews race they inherited this mantle from Yacob Frank the Rabbinical Jew and founder of Communism who put the Rothschilds and Warburgs into power with his money and political connections. Frank was the political messiah of the Jews in his time.

You can also note, Hitler didn't invade the Soviet Union to rule it. But to destroy Jewish Communism and the Jewish Golem of the Red Army before their invasion on Europe along several fronts coming the next month, and Hitler wanted to give the people back their free nations. This was stated by the Russian author Suvoro in his book on the subject which he wrote from the Soviet archives. His books are banned in Jewish run Russia.

Suvoro, who is no friend of Hitler, stated that the invasion of Hitler's forces into the Soviet Union had nothing to do with lebensraum or any maniac plans -- But it was a very rational decided plan and the only working plan to deal with the Soviet invasion that was coming as there was no other action that could be taken. It was self-defence of the European world against the criminal plans of a band of Jewish racist maniacs bent on world conquest and enslavement as their Torah is the blueprint for.

Hitler's plans for liberated Europe follows his anti-Imperialist stance and the pointlessness of trying to rule vast different Empires.

Hitler always hated the Austro-Hungarian Empire because it was a polyglot failure and didn't want to recreate this.

If you study Hitler's writings and actions, he was **not** racist towards other groups. In fact, he was quite respectful towards other groups, which was outside of the norm for the time. Something to

note, Hitler lead a vast multi-racial and ethnic force in which everyone was treated with **equal respect** and **not discriminated against** based on race or ethnic background. This was vastly different from other nations policies who treated the different races and ethnicities serving in their forces as second-class people --- Including the American military, where Blacks were treated as second-class back of the bus types.

There was the written memories of a Black soldier who served in Hitler's army. He stated, the Black soldiers were treated **equal** to the White soldiers they even ate at the same tables and slept in the same barracks. This did not happen in the America Military. The Officers and enlisted men in the SS also ate at the same tables this would not have happened anywhere else. This was done on purpose as the SS was the National Socialist force. And was against the class-ism of the previous world.

Hitler himself stated National Socialism was not about racial hatred of others, but **love for one's own race** and the want to improve the best traits of your own People.

Hitler stated that National Socialism was based on mutual racial respect, racial self-determination and improvement for all Peoples.

Hitler did oppose the Jews because they are violently racist against His own People and the world and where trying to oppress the German People and destroy the nations of the world with Communism the messianic weapon of the Jews. Which is politicized Kabbalah theosophy and just a manifestation of Jewish supremacy and racist predatory beliefs of the alien soul of the Jew. As mentioned Communism was created by Jewish Rabbi's.

The Jews in charge of the Western Allies even worked to slow down the military advance of Patton and the British forces to allow for their Red Army to take as much of Europe as possible. Patton complained about this quite loudly. This on top of already agreeing to give away as much of Europe as possible to Stalin at Yalta.

As already proven in the court case of Zundel when the Holocaust was put on trial right from the Red Cross records which were admitted and the testimony of the Red Cross themselves on the stand admitted as expert witnesses. The Red Cross had observers in the German camps the entire war and kept records. There was around two hundred and such thousand people who died in the camps. And they died due to ALLIED BOMBING RAIDS and the effects of the entire infrastructure of Europe being bombed to the ground by the Allies during the war. Not in homicidal gas chambers. The expert forensic testimony of the Leuchter Report sealed this fact. The Leuchter Report proved there was no poison gas used at Auschwitz. And it was scientifically impossible any of the shower rooms could have been used as gas chambers. The camps were industrial centres and the workers were needed to build war material which is why they were targeted by the Allies in bombing raids. The Jews that were put in the camps were done so as an understood legitimate threat to German security during the war as members of a hostile race. Every major sabotage group, guerrilla movement and such against the German's and their allies during the war was lead by Jewish people and operating as part of a larger Jewish network. Its no different then how Japanese were put into camps during the war by America and the Japanese also put British and American civilians who lived in China and the Far East in camps during the war as well. It was standard practice.

The Zundel trial proved those people all died in the camps as victims in a horrific war started by the

Elders of Zion to destroy the Gentile world. The Zundel trial is also the proof of why the Jewish power lobbies have made it against the law to question the Holocaust in 18 nations. Because the truth does not fear investigation. The Jewish presses also tried to claim the Germans murdered six million Jews in WORLD WAR ONE from 1914-1918.

Look at Palestine to witness who the genocidal, racist maniacs really are. The Jews.

Hitler fought against this as the Jews were trying to turn the entire world in one large Palestine with Communism. As Hitler realized before His time. We are all Palestinians now.

He even mentioned in The State chapter that missionaries should not bother African tribes but left them alone to preserve their racial integrity, but somehow a quote or two of the Mein Kampf are taken out of context to show how Hitler hated blacks and stuff, while 70% of the bible is pure genocidal hatred towards heathens and some retarded wonder if the MK should either be printed or not while the bible and koran are spread everywhere.

When Hitler spoke of the "Reich" meaning 'Empire'. He was speaking of the united states of Germany. Which is what the second Reich was the unification of different German states and regions into a nation. That was just the traditional German word for such. Like how we say "United States of America." This is why Germany had a national vote along with Austria to have Austria united into the Reich. Austria was the one German state that didn't become part of the Second Reich because it was part of the Austro-Hapsburg Empire. Hitler put Germany back together again and ended the oppression and discrimination the German People were suffering and in the case of Poland outright genocide. He fought for the rights of his People.
